## Dragontail Partnership with Revel Systems - Additional Information

In addition to the market announcement made by Dragontail Systems Limited (ASX: DTS, the "Company") on 16 January 2017, the Company note that the Algo Dispatching System (Algo) typically involve a one-time installation fee of around US\$1,000 and a monthly fee of around US\$200 for the service. The costs are subject to change and are affected by market changes and client requirements. As previously mentioned in the market announcement made on 16 January 2017, Algo will be marketed to Revel Systems' Quick Service Restaurant (QSR) customer base.

The Company is unable to make a statement on the likely financial impact of this partnership and are not able to quantify the value of potential revenue due to the varying factors such as market price and number of clients who will sign up for the Algo System.

### About Dragontail Systems

Dragontail is revolutionising the Quick Service Restaurant (QSR) industry with its Algo System, which uses a sophisticated patented algorithm to optimise and manage the entire food preparation process from order to delivery. The Algo is the first system in the world to fully automate and streamline the kitchen flow to deliver immediate and significant returns on investment to fast food and quick service restaurants. The Algo is setting a new standard for the global industry with a number of chains, such as Pizza Hut in North America and Israel, and a large Israeli burger chain already using the system.
