PIZZA HUT AUSTRALIA TO ACCELERATE THE ALGO NATIONWIDE ROLLOUT

Highlights

- **Following very positive results from the first Pizza Hut stores using the DT Algo system, the PH Australia Board decided on an accelerated nationwide rollout of the Algo Platform into all stores.**
- **The rollout into more than 250 Pizza Hut Australia stores will be completed by Q2 2020.**
- **Pizza Hut Australia is also working in conjunction with Dragontail on additional state of the art new restaurant technologies and expect to be first to the market with some of the technology during 2020.**
- **The Australian market joins the UK, Singapore and Canada markets, which also have been mandating nationwide deployments of the Algo Platform.**

27 December 2019 (Australia): **Dragontail Systems Limited** (ASX: DTS, the "**Company**" or "**Dragontail**") is pleased to announce that Pizza Pan Group Pty Ltd, the Australian master franchisee for Pizza Hut (owned by YUM! Brands - the world's largest QSR company), has decided to expedite the nationwide rollout of the Algo Platform. The Algo Platform will be rolled out into 250 Pizza Hut stores across Australia and be completed by the end of Q2 2020.

Following the success of the first installed stores, the improvement in performance and customer's satisfaction, the Pizza Hut Board of Directors has decided to accelerate the deployment of the Algo Platform in Pizza Hut stores across Australia, allocating all the resources needed to complete the 250 stores' installation as planned.

Pizza Hut Australia and Dragontail are aiming to present the market with innovative, state of the art modules, using unique technologies that will contain new functions and services.

Mr. Wayne McMahon, Chief Information Officer at Pizza Hut Australia, commented: "I believe that implementing superior technology is a top priority for our business. Cutting-edge technology, such as Dragontail's, will be a key enabler in propelling Pizza Hut Australia into the next phase of sustained business growth".

Mr. Phil Reed, Pizza Hut Australia CEO added: "In recent months, we have been closely witnessing how the technology improves store operations and, as a result, customer experience. We believe that accelerating the implementation process will lead to tremendous improvement and great impact throughout our stores and among our customers".

About Dragontail Systems

Dragontail is revolutionising the Quick Service Restaurant (QSR) and foodservice industry with its Algo Platform and computer-vision QT quality system that uses artificial intelligence (AI) machine learning.

The Algo Platform uses a sophisticated patented algorithm to optimise and manage the entire food preparation process from order to delivery. It is the first system in the world to fully automate and streamline the kitchen flow to deliver an immediate and significant return on investment to fast food and quick service restaurants.

The QT system's sensor and camera automatically monitor the preparation and cooking process in the kitchen to improve the quality and consistency of meals. Using proprietary patented advanced AI machine-learning technology, the system keeps improving its diagnostics, becoming even more efficient.
