About Dragontail Systems

Dragontail is revolutionising the Quick Service Restaurant (QSR) and foodservice industry with its Algo Platform and computer-vision QT quality system that uses artificial intelligence (AI) machine learning.

The Algo Platform uses a sophisticated patented algorithm to optimise and manage the entire food preparation process from order to delivery. It is the first system in the world to fully automate and streamline the kitchen flow to deliver an immediate and significant return on investment to fast food and quick service restaurants and is currently installed in approximately 1,250 stores.

The QT system’s sensor and camera automatically monitor the preparation and cooking process in the kitchen to improve the quality and consistency of meals. Using proprietary patented advanced AI machine-learning technology, the system keeps improving its diagnostics, becoming even more efficient and is currently installed in approximately 850 stores.
